

Online Lecture Series

II Conference in Glycosciences

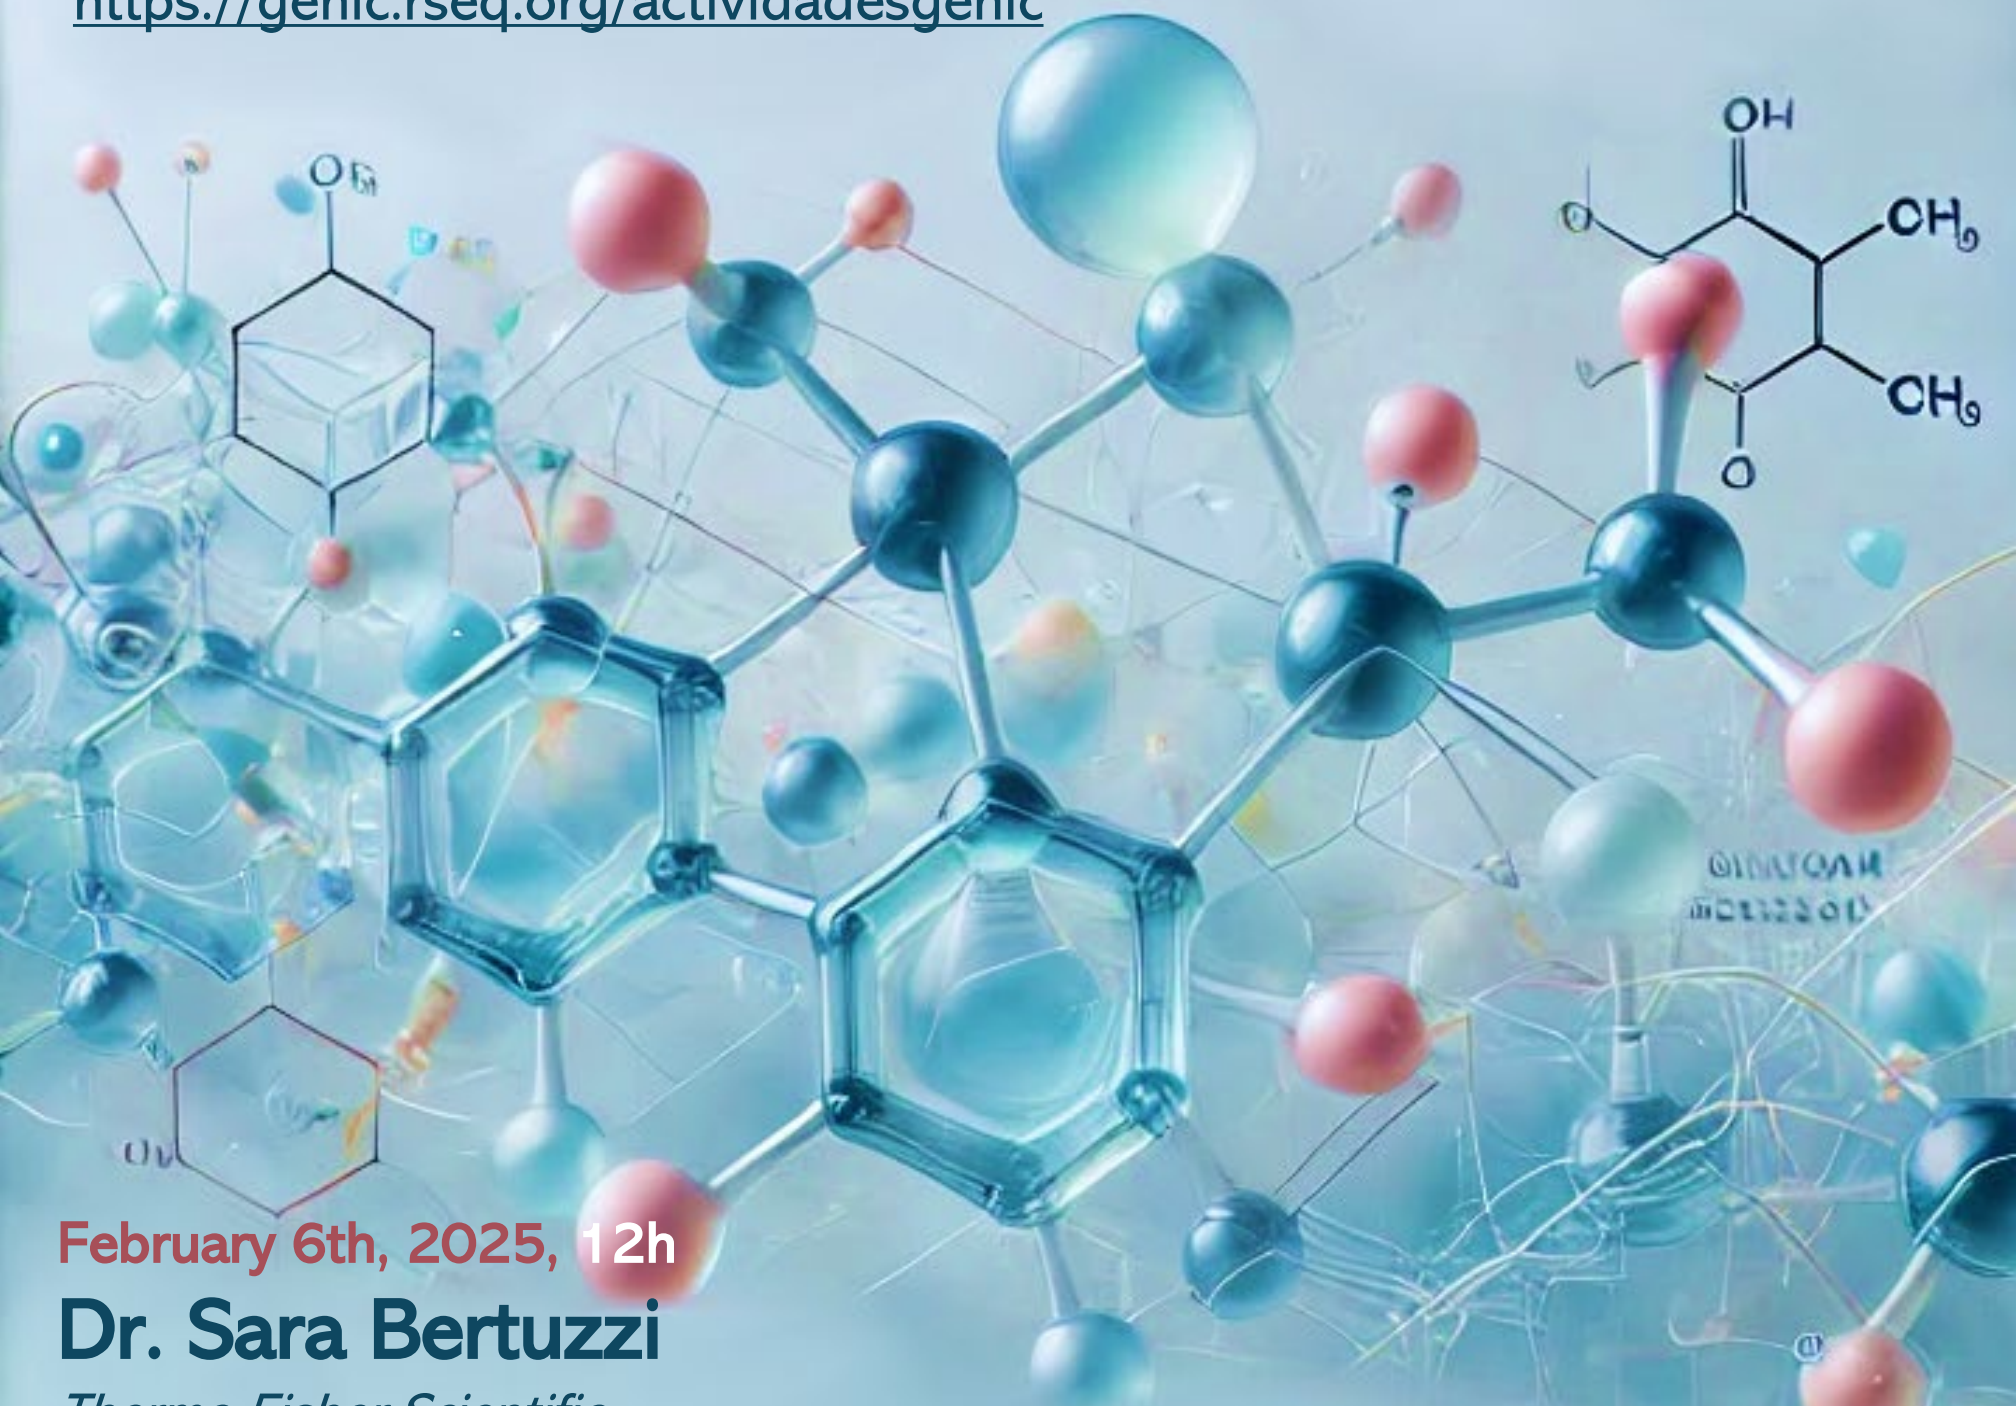

This event series will bring together leading scientists to share and discuss the latest advances in glycan research.

*Carbohydrates Division
Spanish Royal Society
of Chemistry*

February – May 2025

<https://gehic.rseq.org/actividadesgehic>

February 6th, 2025, 12h

Dr. Sara Bertuzzi

Thermo Fisher Scientific

April 3rd, 2025, 12h

Dr. Yasuhiro Kajihara

Osaka University

March 6th, 2025, 12h

Dr. Sarel Fleishman

Weissman Institute of Science

May 6th, 2025, 12h

Dr. Ben Schumann

The Francis Crick Institute

June 10th, 2025, 12h

Dr. Laura Díaz-Casado

Weissman Institute of Science

REGISTER
HERE

II Conference in Glycosciences

May 6th, 2025, 12h

Dr. Ben Schumann

The Francis Crick Institute

register here:

*Chemical Precision Tools
to Dissect Protein
Glycosylation*

June 10th, 2025, 12h

Dr. Laura Díaz-Casado

Maynooth University

register here:

*Study of the role of
aromatic residues in
the recognition of
neutral and ionic
species*

II Conference in Glycosciences

Recorded conferences will be made available soon at our YouTube channel:
<https://www.youtube.com/@hidratoscarnorseq>

PAST EVENTS

February 6th, 2025, 12h

Dr. Sara Bertuzzi

Thermo Fisher Scientific

Unveiling glycan-lectin interactions in cellular-like environments and at atomic level through NMR

March 6th, 2025, 12h

Dr. Sarel Fleishman

Weissman Institute of Science

Computational design of functionally diverse enzyme repertoires

April 3rd, 2025, 12h

Dr. Yasuhiro Kajihara

Osaka University

Reinforcement of Protein-Protein Interaction by Glycosylation
