

III Conference in Glycosciences

January – May 2026

online lecture series

Join leading scientists as they uncover the molecular basis of glycan recognition, enzymatic processing, and glycosylation in health and disease

January 15th, 2026, 12h

Dr. Irene Cuxart

University of Barcelona

February 5th, 2026, 12h

Dr. Christian Büll

Radboud University

March 5th, 2026, 12h

Dr. Cristina de Castro

University of Napoli

April 16th, 2026, 12h

Dr. Fumiichiro Yamamoto

JC Leukaemia Res. Inst.

May 14th, 2026, 15h

Dr. Stacy Malaker

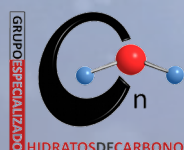

Yale University

III Conference in Glycosciences

January – May 2026

online lecture series

January 15th, 2026, 12h

Dr. Irene Cuxart

University of Barcelona

register here:

*Simulations to elucidate
CAZYme reaction
mechanisms*

February 5th, 2026, 12h

Dr. Christian Büll

Radboud University

register here:

Glycan Cluster Recognition

March 5th, 2026, 12h

**Dr. Cristina de
Castro**

University of Napoli

register here:

*Glycosylation patterns in
giant viruses*

April 16th, 2026, 12h

**Dr. Fumiichiro
Yamamoto**

JC Leukaemia Res. Inst.

register here:

*ABO+logy: The Bioscience
of ABO Blood Groups*

May 14th, 2026, 15h

Dr. Stacy Malaker

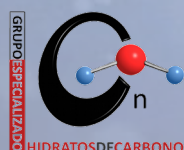

Yale University

register here:

*Pioneering biomarker
discovery through exploration
of mucin glycoproteins*

organized by:

Carbohydrates Division
Spanish Royal Society
of Chemistry

With the support of:
